EXPERIENCE

GE HealthCare, CA | Nov 2024 – Present | Marketing Manager

- Led Account-Based Marketing (ABM) campaigns for diagnostic imaging and digital healthcare solutions targeting key hospital networks across North America - deploying LinkedIn ABM, content syndication, and webinar programs in collaboration with product and sales teams - increasing qualified lead generation by 32% and pipeline contribution by an estimated \$2.5M within 8 months.
- Developed and executed multi-channel demand generation strategies using email marketing, LinkedIn, webinars, industry events, and paid digital campaigns, contributing to a 27% increase in Marketing Qualified Leads (MQLs).
- Partnered with sales operations and business analytics teams to build Salesforce and Power BI dashboards for monitoring pipeline performance, campaign attribution, customer engagement, and marketing KPIs, reducing reporting time by 45%.
- Managed go-to-market (GTM) planning for new healthcare technology launches, coordinating messaging, competitive positioning, sales enablement materials, and customer education programs that accelerated product adoption across key hospital networks.
- Optimized digital marketing performance through A/B testing, audience segmentation, SEO/SEM improvements tracked via Google Analytics 4 (GA4), and marketing automation workflows using Marketo, increasing landing page conversion rates by 24% and reducing cost-per-lead (CPL) by an estimated 15%.
- Conducted market research, competitive intelligence, and customer behavior analysis to identify emerging healthcare trends and physician buying patterns - presenting findings to VP Marketing and Product leadership -

- providing actionable insights that influenced quarterly marketing strategy and budget allocation.
- Collaborated with regulatory, medical affairs, product, and commercial teams to ensure all marketing content complied with healthcare industry regulations (HIPAA, FDA promotional guidelines) while delivering consistent brand messaging, contributing to improved campaign execution efficiency and stronger customer engagement.
- Managed a \$1.2M marketing budget, optimizing spend across multi-channel ABM and demand generation programs to maximize ROI and pipeline contribution.

Orion Technolab, India | Jan 2022 – Jul 2024 | Lifecycle Marketing Manager

- Owned end-to-end lifecycle marketing strategy for BMW, MINI, and Motorrad across 5 European markets (UK, DE, FR, IT, ES), executing personalized omni-channel campaigns (Email, SMS, Push Notification, In-App) via Adobe Campaign Classic and Adobe Journey Optimizer (AJO) - reaching 2M+ contacts monthly with country-specific localizations and content marketing strategies - driving 30% engagement lift and 20% CTR improvement across the portfolio.
- Designed and executed automated multi-channel journeys across 40+ campaigns/month, configuring audience segments, building responsive HTML email templates, conducting QA testing across devices and email clients, reducing manual effort by 80% and improving campaign accuracy by 20%.
- Launched A/B tests across 2–3 variants per campaign (subject lines, CTAs, content personalization), conducting subscription performance, retention analysis, and customer funnel analysis to monitor key metrics (CTR, open rates, conversion) via Adobe Analytics - driving 30% engagement lift and 20% CTR improvement across BMW/MINI/Motorrad portfolios.
- Directed a cross-functional team of 14+ stakeholders spanning Developers, Creative, Analytics, Legal, and Biz Dev - defining campaign KPIs, leveraging subscription data to build detailed customer profiles, and mentoring 5 analysts on CRM best practices and campaign optimization.
- Managed campaigns that contributed an estimated €3.5M in attributed pipeline revenue, demonstrating direct impact on business bottom line through lifecycle marketing and customer retention programs.

Virtual Infotech Solution, India | Apr 2020 – Dec 2021 | CRM Analyst

- Managed end-to-end CRM campaign execution for AT&T, AbbVie, and Sanofi across 60+ campaigns/month - gathering business requirements, defining user stories, and translating them into scalable Marketo workflows. Built and coded responsive HTML email templates and conducted thorough QA testing via Litmus across devices and email clients for 900K+ contacts.
- Partnered with U.S. stakeholders to translate business goals into flawlessly executed campaigns - implementing audience segmentation, automation workflows, and localized variations across 4 markets (US, UK, Canada, Australia), improving campaign delivery accuracy by 30%.
- Developed GTM strategy and managed end-to-end campaign deployment across 4 markets - coordinating with Creative, Product, and Brand teams to ensure email assets met business requirements, brand guidelines, and launch timelines - achieving 95% target reach within first 30 days of campaign launches.
- Analyzed campaign performance and customer engagement data across 5 client accounts, developed reporting frameworks tracking 6+ KPIs (open rates, CTR, conversion, bounce rates, unsubscribe rates, deliverability), and delivered insights through business storytelling that directly informed retention strategy - leading one client to reallocate 20% of their budget to highest-performing channels.
